

Private medical residence

On the Adriatic coast

A professional response to delicate matters in the psycho-emotional sphere.

Working with states that are hard to name yet impossible to ignore.

An environment where a person who has lost their footing rediscovers inner order, clarity, dignity, a taste for life and self-respect.

*We are a stop along the way
— a place where recovery
becomes part of life*

Who it is for

 For those who work at constant intensity

 For those who want to build healthy eating habits

 For those facing emotional exhaustion complicated by substance abuse

 For those who need rehabilitation support after aesthetic procedures

 For those who take a systemic approach to their quality of life

 For those who value trust, confidentiality and an individual approach

The process

Recovery is a managed process, and we take its guidance upon ourselves.

Our guests go through a program to learn again how to regulate their state.

Customer journey

01 **Consultation**
We record the initial state and request, and set the direction of recovery.

02 **Diagnostics**
We examine the body as a single system and identify the causes behind changes in condition.

03 **Protocol**
We design a personalized recovery program based on diagnostic results and monitor the dynamics of the condition.

04 **Intensive**
We create the conditions for a deep reset of the body and the restoration of physical strength and emotional resource under specialist supervision.

05 **Stabilization**
We assess and consolidate the result and build a strategy for sustaining progress after the program.

What the programs include:

 A single luxury suite with a sea view

 Three meals a day from the chef, tailored to an individual plan

 Medical diagnostics

 A personal recovery plan

 Daily supervision by a doctor

 Nutritionist consultations

 Infusion therapy

 Physiotherapy: massage, exercise therapy

 Psychotherapy sessions

 Pharmacological support

 A final report and post rehabilitation support plan

Programs

Executive Recovery

Burnout and overload

A program to recover from chronic stress, emotional burnout and high loads. Aimed at stabilizing the nervous system and restoring energy, focus, sleep and overall resource.

Body Balance Reset

Metabolism and self-regulation

A program of gentle restoration of metabolic balance and eating behavior. Helps lower stress, restore energy exchange and support the nervous system and the body's internal processes.

Post-Surgery Recovery

Postoperative rehabilitation

A program to recover after surgery and medication load. Aimed at accelerating regeneration, reducing swelling, restoring energy and a safe return to the usual level of activity.

Human Reserve

Sustaining resource

A preventive program to maintain energy, immunity and the body's resilience under high physical and intellectual loads. Helps replenish deficiencies, improve recovery and keep a high level of resource.

Program duration:

Fast Recovery

3 days · 2 500 €

Basic Recovery

7 days · 5 500 €

Full Recovery

30 days · 15 000 €
